

Project: Aurora Municipal Building – Grand Lawn

Client: City of Aurora

Type: Soil Amendment for 55,000 sq. ft. sod project.

Description: Demonstrated reduced establishment period and improved root structure for sod with limited water availability.

Methodology: Drop spread – 3 lb to 25 lb per 1000 sq. ft. Gypsum/micronized Rescaype blend and till soil to 6" depth.

Results: Sod established in excellent health quality with only 20 days of irrigation permitted.

Applications: All soil amendment applications Turf & Ag
