

**Project:** Tree and shrub transplants

**Client:** City of Aurora

**Type:** Tree & shrub transplant

**Description:** Demonstrated difference in quality and survival rate of AMS/MP slurry – treated specimens vs. non-treated specimens.

**Methodology:** Applied to prepared tree & shrub transplant location. 200 gals water to 1 gal MP/AMS slurry product by gravity feed tank.

**Results:** Dramatically improved quality of shrubs treated vs. non-treated after only 2 weeks. 100% tree survival rate.

**Applications:** All tree and larger shrub transplant projects.
